ORDERING INSTRUCTIONS: Please Specify:

- Quantity
- Product Model (MIL100, MIL200)
- Frame Color
- Standard Resizable Kit or Custom Made Screen
- Cassette Housing (e.g. 36mm, 41mm, 42mm)
- Size (Width x Height)
 - > If Custom Made Screen please reference the net opening dimension; indicate if Recess or Surface Mount installation
- Add Any Other Desired Options

PRODUCT NOTES:

The default screen fabric for Milano series is the 18x16 Insect Screen Fabric. Please see page 3 for other fabric options, size limitations and costs. Table A also provides guidance on the maximum allowable opening dimension by cassette type based on using 18x16 Insect Screen Fabric. Unless otherwise specified, the default cassette for Milano series screens is the 41mm.

*Smooth-Glide Screens: The maximum allowable width = the Net Screen Opening Height minus 16" (400mm). The type of Cassette (36mm, 41, or 42mm) and alternate screen fabric options will also impact the maximum allowable width.

NOTE: Genius screens are designed to support natural ventilation and protection against air born insects and other pests. Windy conditions may affect the performance of the screen. Retract the screen in windy circumstances, during inclement weather and when not needed to support immediate ventilation or prolong periods of time when not used.
